Deuces Wild Full Pay — large print, back

Cut on the line. Laminate. 5 x 7 in — the large-print version; print this one if the small type is a strain.

HOW TO USE THIS CARD

Four steps

1. Check the nine payouts on the machine against the front of this card. A multi-denomination machine can change paytable when you change the denomination.
2. Bet five coins. Every return here assumes it; fewer cuts the royal to a fifth and costs about 1.4% of everything you put in.
3. Go down the front from line 1. Stop at the first line your five cards can make, hold exactly those, and draw.
4. If a line fits two ways, take the one with more high cards; if that ties, the lower cards. Q-J makes more straights than A-K.

The two terms

High card means J, Q, K or A — the ranks that pay when they pair up.

Completes N ways counts the ranks that finish a straight. Two ways is open at both ends: 4-5-6-7 takes a 3 or an 8. One way is a gutshot, and so is A-K-Q-J.

What this card is worth

Followed exactly, this card returns 100.5470% of everything you bet on Full Pay, against 100.7620% for perfect play. It gives up 0.2150 points — one five-coin bet every 465 hands, or $1.61 an hour at quarters and 600 hands an hour.

No exceptions and no footnotes: a line earned its place or it is not here, which is why that is one number and not a range. Measured, not simulated, over all 2,598,960 deals against a solved table of every Deuces Wild hand.

Also correct for 1 other paytables, each with its own measured return, listed at bitsandodds.com/video-poker/cheat-sheet/

- 2 to a flush
- 3 to a flush
- 1 to a royal flush

800-200-25-15-9-5-3-2-2-1 Per coin at five coins bet · generated 2026-09-22

bitsandodds.com/video-poker/cheat-sheet/ © Voitto Virta LLC

Pocket card — cut, fold once, laminate

Cut the outer rectangle. Fold along the dashed line so the two faces go back to back. Laminate the folded card. Finished size 3.5 x 5 in, which fits an index-card pouch.
